

Tapping saddles Code 278

Advantages & attributes:

Creating branch connections (e.g. house connections) on main pipes during operation

- Quick and easy installation thanks to fixation strap
- Clean, leak-free tapping without shavings and residues
- Gas-tight, patented telescopic tapping system
- Extra-long branch outlet allows 2 electrofusion weldings
- Perfectly combinable with AGRU Gas-Lock Code 9P.272

The AGRU tapping saddle creates branches on gas pipes under full pressure („hot tapping“) without interrupting the operation. This pressure tapping fitting is characterised by quick, easy and safe installation. Manufactured from stress crack-resistant PE 100-RC, the AGRU tapping saddle stands for maximum reliability during installation and subsequent operation.

TAPPING SADDLES CODE 278

Dimension of main [mm]	Dimension of spigots [mm]
40	20, 25, 32
63	20, 25, 32, 40, 63
90	25, 32, 40, 63
110	20, 25, 32, 40, 63
125	20, 25, 32, 40, 63
160	20, 25, 32, 40, 63
180	25, 32, 63
200	20, 25, 32, 40, 63
225	25, 32, 63
250	32, 63
315	63
